

Animals Galore

This is a hands-on activity which can be made easy or challenging. These animals are made using wood. In this particular activity, we used readily available wood animal shapes and painted them. To make the activity more challenging, you can get an adult to help you cut wood into the animal shape you want. The instructions are pretty self-explanatory.

All you have to do is gather acrylic paints in a variety of colors and paint the animals in appropriate colors. Be creative and have fun!
