

# When I Grow Old

When I grow old,

Do not forget me,

I still have things to say,

It seems like it was yesterday,

That I could run and play,

When I grow old,

Give me love and care,

Remember all I did for you,

I still have love to share.

When I grow old,

Talk to me,

About the good old days,

I may have something you want to hear,

To help you through your tears,

When I grow old,

Remember the good times we had

When you were just a little one,

Making memories,

There are still memories to be made...

When I grow old.
