

MATCHING

Match the following names with their achievements:

- | | |
|-----------------|--|
| 1. Avery | A. the first clone |
| 2. Crick/Watson | B. created the term "mutation", wrote paper on it |
| 3. Darwin | C. discovered chromosomes |
| 4. DeVries | D. chromosomes are in pairs |
| 5. Dolly | E. DNA is responsible for heredity |
| 6. Fleming | F. general cell theory |
| 7. Hooke | G. heredity experiments with pea plants |
| 8. McClintock | H. transmission of characteristics/mutations |
| 9. Mendel | I. genes are located on chromosomes |
| 10. Morgan | J. began mapping <i>Drosophelia</i> chromosomes |
| 11. Muller | K. matter is made up of cells |
| 12. Sturtevant | L. made the first DNA model |
| 13. Sutton | M. genes change position on chromosomes |
| 14. Weismann | N. <i>Drosophelia</i> experiments, created mutations |
| 15. Wolfe | O. "Origin of the Species" |

MATCHING - ANSWERS

- | | |
|-----------------|----|
| 1. Avery | E. |
| 2. Crick/Watson | L. |
| 3. Darwin | O. |
| 4. DeVries | B. |
| 5. Dolly | A. |
| 6. Fleming | C. |
| 7. Hooke | K. |
| 8. McClintock | M. |
| 9. Mendel | G. |
| 10. Morgan | I. |
| 11. Muller | N. |
| 12. Sturtevant | J. |
| 13. Sutton | D. |
| 14. Weismann | H. |
| 15. Wolfe | F. |
