

MATCHGAME

Can you correctly rematch the pairs of words below to form ten correct phrases?

1. dominant cell
2. Punnett marker
3. base helix
4. gene fingerprinting
5. genetic gene
6. complementary pairs
7. somatic engineering
8. recessive sequence
9. recombinant mapping
10. messenger acids
11. double DNA
12. genetic RNA
13. DNA gene
14. base expression
15. gene square
16. gene DNA
17. amino therapy

MATCHGAME - ANSWERS

1. *dominant gene*
2. *Punnett square*
3. *base sequence*
4. *gene expression or mapping or therapy*
5. *genetic engineering or marker*
6. *complementary DNA*
7. *somatic cell*
8. *recessive gene*
9. *recombinant DNA*
10. *messenger RNA*
11. *double helix*
12. *genetic engineering or marker*
13. *DNA fingerprinting*
14. *base sequence*
15. *gene mapping or therapy or expression*
16. *gene therapy or mapping or expression*
17. *amino acids*
